

Air TiVi+ for Windows

You can enjoy Air TiVi+ at your PC as well now ! (Windows XP, Windows 7, Windows 8)

All the features will be the same as provided in mobile application.
Before running PC program, please make sure to check the below things.

1. Media Server should be started. (Menu > Manager > Media Server > Start)

Both STB and PC should be connected in same network

2. Storage device should be connected to STB such as USB stick or External/Internal HDD

*If it is not working with storage, please check recording device setting. (Settings > Recording Option > Record Device)
Recording device should be selected at correct position where your storage is connected.*

It is supporting 3 kinds of screen mode :

Default with TV/Radio channel list and Setting / Fit to window screen / Full Screen

< Fit to window Screen >

< Full Screen >

You can make a schedule setting by click + in my schedule list.

Upon running Air Tivi+ PC, it will find your STB automatically within same network.
In case if not, you can input STB IP address manually here at the setting.

Enjoy Air Tivi + in your PC as well !
